**DCG12-200**
Rechargeable Sealed Lead Acid Battery
DCG – Deep Cycle Gel Series

### TERMINALS: (mm)
- **T11:** Threaded insert with 8mm stud fastener

### DIMENSIONS: inch (mm)
- **L:** 20.55 (522)
- **W:** 9.45 (240)
- **H:** 8.58 (218)
- **HT:** 8.82 (224)

Tolerances are +/- 0.04 in. (+/- 1mm) and +/- 0.08 in. (+/- 2mm) for height dimensions. All data subject to change without notice.

---

**FEATURES**
- Thixotropic gel electrolyte for enhanced performance
- Valve regulated, maintenance free spill proof construction
- Specifically engineered for cyclic applications
- Power/volume ratio yielding excellent energy density
- Gas recombination technology
- Rugged vibration and impact resistant ABS case and cover (UL94-HB) Also available to UL94-V0

**APPROVALS**
- U.L recognized
- ISO9001:2015 – Quality management systems

---

**CHARGING**

**Cycle Applications:** Apply constant voltage charge at 2.35v/c – 2.45v/c (14.1 – 14.7v for 12v Monobloc) at 20°C. Initial charging current should be set at less than 0.25C Amps. Switch to float charge to avoid overcharging.

“Float” or “Stand-By” Service: Apply constant voltage charge of 2.25v/c – 2.30v/c (13.5 to 13.8 volts for 12v Monobloc at 20°C. When held at this voltage, the battery will seek its own current level and maintain itself in a fully charged condition.

**Temperature Compensation:** Charging Voltage for both Cyclic and Standby applications should be regulated in relation to ambient temperature. As temperature rises charging voltage should be reduced to prevent overcharge and increased as temperature falls to avoid undercharge.

For further charging information including temperature compensation factors, see Power Sonic Technical Manual/Power Sonic Charger specifications.

**APPLICATIONS**

A whole range of CYCLIC applications including but not limited to:
- Medical
- Solar
- Wind
- Mobility
- Golf Carts

**CHARGERS**

Power Sonic offers a wide range of chargers suitable for batteries with a variety of capacities.

Please refer to our website for more information on our switch mode and transformer type chargers.

Please contact our technical department for advice if you have difficulty in locating a suitable charger.

**FURTHER INFORMATION**

Please refer to our website www.power-sonic.com for a complete range of useful downloads, such as product catalogs, material safety data sheets (MSDS), ISO certification, etc.
