**GO SMARTER**

Active intelligent monitoring. At the heart of every Hyper Sport Lithium battery is an integrated management system that monitors and reacts to multiple voltage, current, and temperature events to maximize performance, battery life and safety.

**GO SAFER**

Lithium Iron Phosphate (LiFePO4) is the safest type of lithium battery and a ready to go replacement and upgrade from lead acid, AGM or gel.

**GO FASTER**

- 4X faster charge time

**GO LONGER**

- 4X longer life
- 4X the warranty

**GO HYPER SPORT**

Simply connect your battery and you are ready to go.

---

**PERFORMANCE SPECIFICATIONS**

- **Nominal Voltage**: 12.8V
- **Watt-Hour (2.5A to 10.0 volts)**: 64
- **Charging Voltage**: 14.4V (Standard) – 14.8V (Max)
- **Charging Current**: 2.5A (Standard) - 10.0A (Max)
- **Approximate Weight**: 2.65 lbs. (1.2kg)
- **Max continuous output current**: 20A
- **Max starting current (5s at 77°F (25°C))**: 250A
- **Cycle life (80% DOD at 77°F (25°C))**: ≥2000
- **Charge Retention (Shelf Life) (at 68°F (20°C))**:
  - 1 Month: ≥95%
  - 3 Month: ≥90%
  - 6 Month: ≥80%
- **Operating Temperature Range**:
  - Storage: 14°F (-10°C) to 131°F (55°C)
  - Charge and Discharge: -4°F (-20°C) to 104°F (40°C)
- **Case**: ABS
- **Upgrade to lead acid battery model**: PTX14-BS
**PAL14HY**

Lithium Iron Phosphate (LiFePO4) Battery
Hyper Sport Series

---

**DISCHARGE TIME VS DISCHARGE CURRENT (25°C)**

![Discharge Time vs Discharge Current Graph](image)

**PULSE DISCHARGE CURVE (10 SECONDS)**

![Pulse Discharge Curve Graph](image)

---

**CHARGING**

The battery can be used if the voltage is higher or equal to 12.8V, although we recommend fully charging the battery if the voltage is below 13.0V. Apply constant voltage charge between 14.0V and 15.0V to fully charge the battery.

The Hyper Sport series requires lithium compatible chargers and testers. We do not recommend the use of lead acid chargers as many in the market are not suitable for lithium iron phosphate batteries.

**APPLICATIONS**

- Motorcycle
- Scooter
- ATV
- Watersport
- UTV

**WARRANTY**

Designed and engineered at our ISO 9001:2001 certified factories all Power Sonic batteries are subject to stringent quality control through every step of the manufacturing process ensuring both consistency and reliability. The Hyper Sport series are backed by a 2-year limited warranty.

**FURTHER INFORMATION**

Please refer to our website [www.power-sonic.com](http://www.power-sonic.com) for a complete range of useful tools and downloads, such as our PowerSports battery finder, application guides, material safety datasheets and much more.
