**INTELLIGENT BATTERY MANAGEMENT SYSTEM**

The PSL-BTP Series come with an intelligent battery management system which can monitor and optimize each cell during charge and discharge. This protects the battery from over-charge and over-discharge.

The BMS embeds smart balancing algorithms that control all the cells in the battery, making sure they are constantly at the same voltage level. The State of Charge (SoC) and State of Health (SoH) of each individual cell.

**BUILT IN BLUETOOTH®**

Monitor the State of Charge (SoC) and State of Health (SoH) of your battery from your phone or tablet.

**APPLICATIONS**
