PSL-SC-12800-G27 12.8V 80.0AH

Rechargeable Lithium Battery
PSL SC – Serial Connection Capable Series

BATTERY FEATURES
- Super safe lithium iron phosphate (LiFePO4) chemistry reducing the risk of explosion or combustion due to high impact, over-charging or short circuit situation
- Battery Management System (BMS) controls the parameters of the battery to provide optimum safety by protecting against over-charging and over-discharging
- BMS enhanced design balances the battery cells, optimizing battery performance
- Higher capacity or voltage capability through parallel or serial connections
- Delivers twice the power of lead acid batteries, even at high discharge rates, while maintaining constant power
- Faster charging and lower self-discharge
- Up to 10 times more cycles than lead acid batteries
- Compact and only 40% of the weight of comparable lead acid batteries
- Rugged impact resistant ABS case

APPROVALS
- UL 1642 cell certificate
- IEC 62133 cell certificate
- UN 38.3 certified
- ISO9001:2015 - Quality management systems

PERFORMANCE SPECIFICATIONS
- Nominal Voltage: 12.8 V
- Rated Capacity: 80 AH at a Constant Current of 0.2C to 10V
- Stored Energy: 1024 Wh
- Cycle Life (@DOD100%) 2000 Cycles
- Approximate Weight: 22.3 lbs (10.1 kgs)
- Internal Resistance: ≤30.0 mΩ
- Max Charge Current: 80 A
- Max Discharge Current: 80 A
- Charging Voltage: 14.6 V
- Recommended Discharge Cut-Off Voltage: 11 V
- Series & Parallel Connection: 4 in series or 4 in parallel
- Operating Temperature Range Charge: 32°F (0°C) to 113°F (45°C)
  Discharge: -4°F (-20°C) to 140°F (60°C)
  Recommended: 59°F (15°C) to 95°F (35°C)
- Self-Discharge Rate: ≤3%/month
- Long Term Storage: Charge every 6 months or as soon as OCV is 12.8V
- Power Sonic Chargers: Contact us for information on a suitable charger.
- Life Expectancy (years): 5 years at one cycle per day
- Short Circuit Protection: Automatically recover after removal of short
- Dimensional Tolerances: +/- 0.04 in. (+/- 1mm) for length and width
  +/- 0.08 in. (+/- 2mm) for height dimensions
- Terminal Type: T11

INTELLIGENT BATTERY MANAGEMENT SYSTEM
The PSL-SC Series comes with an intelligent battery management system which monitors current and voltages during charge and discharge. This protects the battery from over-charge and over-discharge.

The BMS embeds smart balancing algorithms that control all cell voltages in the battery, making sure they are constantly at the same voltage level, optimizing battery capacity.

SERIAL CONNECTION CAPABLE
The SC series allows for up to 4 batteries connected in series or 4 in parallel, but not concurrently. The batteries must all be matched at voltage levels, capacity, state of charge, date of manufacturing, and chemistry.

APPLICATIONS
- Medical
- Solar
- Wind
- Mobility
- Data Center
- Transport
- Sports & Recreation
- Utility

**BENEFITS OF LITHIUM**

Lithium offers several performance benefits versus its sealed lead acid (SLA) equivalent. A lithium battery's capacity is independent from the discharge rate and provides constant power throughout its discharge. The degradation of a lithium battery at a high temperature is significantly reduced in comparison to SLA.

Lithium has ten times the cycle life as SLA at room temperature. Even at an elevated temperature, lithium still has increased cycle life over SLA at room temperature.

Lastly, Lithium charging follows a similar charging profile as SLA, Constant Current Constant Voltage (CC/CV). However, lithium can be charged faster, without the need for a maintenance float charge.
