

EVDS-CCS1/CCS1-53-BA (NA)

Distributed Charging BABA-Compliant Distributed DC Fast Charging

The EVPS BABA-compliant series is purpose-built to meet Build America Buy America (BABA) requirements for federally funded and infrastructure-backed EV charging projects. Designed around a centralized power architecture with distributed dispensers, the system enables efficient shared power delivery across multi-bay sites while aligning with domestic content and manufacturing mandates. Intelligent load balancing dynamically allocates power across multiple charging points to maximize utilization and throughput, supporting both light- and heavy-duty fleet operations. With scalable system configurations and a

Performance Specifications

DC (Battery) Specifications

Battery Chemistry	N/A
Stored Energy	N/A
Voltage	N/A
Battery Voltage Range	N/A
DC Charge / Discharge Current	N/A
Supply Input	N/A
Frequency	N/A
Power Factor	N/A
Network Connectivity	Ethernet, 4G, Wi-Fi
Communication Interface	N/A
Cooling Method	Forced air cooling and liquid-cooling

AC (PCS) Specifications

Rated Power	N/A
Max. AC Power	N/A
AC Rated Voltage	N/A
Grid Voltage Range	N/A
AC Rated Current	N/A
THDI	N/A

General Specifications

Cycle Life	N/A
IP Rating	IP55
Operating Temperature	-13°F (-25°C) to 122°F (50°C)
Operating Humidity	5% - 95% without condensation
Fire Fighting System	N/A
Gas Detection / Release	N/A
Energy Management System	N/A
Weight	485.0 lbs (220.0 kg)
Dimensions	L: 29.5in, 750.0mm W: 17.7in, 450.0mm H: 82.7in, 2100.0mm
Warranty	3 years as standard

EVDS-CCS1/CCS1-53-BA (NA)

Distributed Charging BABA-Compliant Distributed DC Fast Charging

Features

BABA-compliant distributed DC fast charging systems for large-scale fleet and depot deployments.

Model Variations Available

Approvals

Ask your Power-Sonic representative about additional certifications and approvals.
